# MINING, BUSINESS AND STOCKS.

## JESSE KNIGHT VISITS HIS TINTIC SMELTER

May Not Close-Soon to Let Another Contract for Shaft at Tintie Central.

(Special to the "News.") Eureka, Sept. 20. Jesse Knight, owner of the Thitle smelter and W. Lester-Mangum, manager, were here during the past week, and while they declared that the ores they are now getting are not the kind for them to make a good mix with, there is still a probability

mix with, there is still a probability that the plant will not close down. It is understood that should enough Nevada and Bingham ores be secured, the plant would continue to run.

From what Mr. Knight said during his trip, it is believed that a deal is on for the sale of the smelter. Any one of the large companies could operate the plant at a profit by diverting some of their outside ores to it.

Preparations are being made for the building of a large ore house at the Chief Consolidated property. Another car load of ore is now in the bin at the property awaiting shipment.

A. N. Holdaway declares that another contract for sinking the shaft of the Tintle Central will be let as soon as the present contract expires, which has about 25 feet more to go. The shaft is now down close to the 400 foot level. The shaft will be dropped down to the 500 foot level where it is believed the lime will be encountered. A small pump has been installed which is able to care for the water.

George Havercamp of Provo, who was here last week declares, after a visit to the Uncle Sam property, that he never saw the mine in better condition and that it is enlarging its area of ore every day.

DEEPER AT EAST TINTIC.

Manager Ralph Kellogg states that the shaft at the East Tintle Develop-ment mine has now reached a depth of about 430 feet. Sinking will be con-tinued until the 500 level is reached and then cross-cutting will commence at that depth as well as upon the 325

Regarding the recent strike which was made at a depth of 225 feet Mr. Kellogg says that he is now drifting to the north and also to the south upon this ore and the mine never look-ed better than at the present time. A winze was dropped down in the ore from the 225 level to a depth of about 15 feet. This was started for the pur-pose of getting the strike of the ore and when this had been accomplished work in the winze was discontinued work in the winze was discontinued

work in the winze was discontinued.

Two cars of nice ore was sent out from the East Tintle Development mine during the past week making three cars which have been sent out since the first of the month.

James Morgan, Del Roberts, Charles Parker and J. E. O'Connor made a trip over to the Diamond Queen property Thursday. Mr. Morgan and Mr. Roberts who recently purchased a pretty big block of the company's stock were highly pleased with the showing in the face of the tunnel which is being run in to cut the vein. Vein matter is now being cut by this tunnel and a big body of ore should be opened up withing the next 30 or 40 feet.

EXAMINES SIOUX.

EXAMINES SIOUX.

Through the courtesy of Supt. W. D. Loose, Manager J. C. Sullivan of the Raymond-Illinois mine, was taken through the Sloux Con. mine Thursday. Mr. Sullivan has visited the Sloux upon several occasions but was agreeably surprised to see the large amount of ere which is still exposed in all parts of the mine. This can mean but one thing—that the Sioux will be able to continue the payment of big dividence for a long time to see Sullivan states that the showing in the difft which is being pushed out into the old territory of the Sloux could hardly be more encouraging and the indications are quite favorable for opening up an entirely new ore body.

#### MARKET IS AGAIN WEAK.

Leaders Are Slow and Unsteady on Local Mining Exchange.

There was not the snap and ginger on the local mining exchange today that is usual and trading was remarkably slow, with the leaders weak. The first stock to be traded in on the regular board was Colorado which sold for \$1.50. It did reach \$1.52\% and the prices were unchanged on the open board.

Columbus Consolidated failed to im-

Columbus Consolidated failed to im-Columbus Consolidated failed to improve today and Grand Central was weaker. Iron Blossom, being exdividend today, was remarkably weak. It sold at \$1.05 and \$1.07½, Mason Valley held its own and only a small amount of the stock was dealt in. Silver King was the only stock that off set the declining market and it sold as high as \$4.22½. It was still selling strong at the close, Sloux Consolidated and Uncle Sam were steady today.

The total number of shares disposed of was 36,430 and the amount represented was \$19,616.75. On the curb market Unitah Treasure Hill sold at 10 cents and Ely Witch was disposed of at 12 cents. AFTERNOON QUOTATION

ing steady work and have been moving rapidly ahead for some time near Park City is the East Carbonate company. The property of this company is located in the south fork of Big Cottonwood, in the neighborhood of the Baby McKee, Reeds Peak and other promising properties. promising properties. Ore was shipped from the Carbonate 26 years ago, but work was abandoned on account of water. It was then known as the

White Swan.
Last year a company was formed and the property incorporated under the name of the East Carbonate. There is no stock for sale—the company raising funds by voluntary assessments. Development is being done by the tunnel which is in over 200 feet. Ore is being taken out that goes 43 ounces silver and 33 per cent lead, but the body the company is after has not yot been reached, but the management is

confident of reaching the ore.

H. P. Workman is president of the company and George Huddy secretary and the stockholders are principally Park City results. Park City people. W. Mont Allen of the Adirondack

Mining company expects to soon have the work going at full blast at his prop-erty. He has been away for some time arranging the affairs of the company and he believes that the company will and he believes that the company will soon be in a position for extensive

heavy flow of water was k in the Ontario tunnel last. This has now reached normal as denied that the fissure was cut It was dealed that the fissure was cut but this is probable at any time. The cutting of a fissure would mean much to the Daiy Judge as it would give a depth of 2,200 feet on the property. The tunnel at the Reeds Peak property is advancing at the rate of four feet a day. Streaks of ore are being encountered, but this is being passed up as it is expected that a good sized ore body will be picked up when the tunnel goes in some 300 feet more.

Tony Jacobson, manager of the Co-umbus Consolidated Mining company, has gone east on a short trip.

W. J. Merritt, superintendent of the Red Warrior mine in the Star district, Beaver county, is in the city for a few Mining men believe that it is possi-

ble that pitchblende, the ore from which radium is obtained, will be found in the Deep Creek district. Col. C. E. Loose has returned from a business trip to the Muson valley, Nevada. district, where he is interest-ed in several copper properties.

The following shipments were made out of the Park (lity district during the past week. The amounts given in pounds were: Daly West, 1,250,000; Silver King, 1,429,160: Daly Judge, 729,-000: Daly Judge (zinc), 793,210; Little Bell, 228,000; total, 4,429,570.

A corps of surveyors has been at work at the Gold Springs Mining & Power company for several weeks placing a grade for a spur of the Sait Lake Route to the mill site of the company. Work on the new plant will begin Oct. 25.

According to A. B. Devine, the Arvocate Mining company in the Gold Mountain district is still in ore in its tunnel, and six and a half feet of the distance is in one running from \$1.45. distance is in ore running from \$4.45 to \$120. The Signal Peak company has four men at work at its tunnel which is now in 1.525 feet. The Lono Tree Mining company is driving a cross cut tunnel, which is in 600 feet and is crosscutting a bird's eye porphyry. The Golden Treasure Mining company has four men at work.

#### UNIVERSITY NEWS

The department of chemistry has just received a \$1,500 consignment of supplies. The shipment includes almost everything from distilled water to platinum foil.

Since the best chefs, milliners, and Since the best chefs, milliners, and dress makers are men. Miss Van Cott sees no reason in the world why she cannot have boys as well as girls do house work, for their board and room. At present there is a demand for girls who wish to earn their way through school in this manner. Miss Van Cott will try to fill the extra places with boys.

The college registration to date is 593.

Among the many unwritten rules at the university is one in regard to clearing out the lockers at the end of the school year. From all ap-pearances, this rule was almost total-ly neglected in so far as the men's gym was concerned. As a result this morning the lantors removed about morning the janitors removed abou half a cart load of gym apparel mos of which was destroyed.

This is the first year an incidenta fee, amounting to \$5 has been charged. Contrary to expectations the officials collecting this fee have so far, met with very little trouble. Many visitors have been on . many visitors have been on the campus Saturday as well as today. They seem to be most interested in Prof. Beckstrand's experiments in the use of compressed air for pumping

A notable feature of the registration is that about 80 per cent of those who applied during the first two days were freshmen while during the last day the applicants were almost ex-clusively old students.

Miss Van Cott announces that both the lunch-room and training table will be ready today. Among the many improvements of the lunch counter is a steam table.

#### GOV. JOHNSON'S CHANCES ARE ABOUT EVEN

Rochester, Minn., Sept. 20 .- While Rochester, Minn., Sept. 20.—While Gov. Johnson is somewhat better to-day, according to Dr. C. H. Mayo, who called on him early in St. Mary's hospital, the doctors still consider the governor in a grave state.

At 10 a. m. Dr. McNevin issued the following bulletin:

"Gov. Johnson is resting comfortably but is not electing. He is having con-

"Gov. Johnson is resting comfortably but is not sleeping. He is having considerable trouble and distress from gas pains. I would say that his condition is practically unchanged from the last bulletin except that his respiration has dropped to a point between 28 to 30. He has given him about one quart of nourishment since 7 o'clock this morning in the shape of carbonated water. "This weakened condition this foremon did not permit giving him weak tea or strained broth, as we had hoped. "The crisis period of five days will be passed at 11 o'clock. His chances are still about even."

The great anxiety is on account of the patient's inability to keep on his stomach any nourishment.

#### LOCAL MARKETS

Butter is stronger than ever on the local market, the wholesale price having been strengthened to 34 cents. One cent higher, and the retail price jumps to 45 cents, so wholesalers say. Already, the high figure commanded by this article of food has begun to bring in butter from Kansas and Nebraska, good Nebraska butter selling at 35 cents on market row, and a product of half butterine and half straight article is selling at 35 cents. It is believed that with home creamery butter at 45 cents retail, there will be great shipment of stock from the plains country east of the Rocky mountains, which will certainly prevent butter from going any higher. Local dealers say they are entirely irresponsible for the high price of butter. The reason they give is diminished feed products for the cows, producing record cards showing that the milk supply at present is not over one-half what it was in July. However, Indian summer is yet to come, which generally is attended by a temporary improvement in pasture conditions, and for a time an increase in the milk supply is looked for.

Commission men call attention to the

Commission men call attention to the urgent need of the extension of the pure food laws to cover grains. A flagrant instance of this was noted to-day, when a car of oats from Cache valley was unloaded. The oats, per se, were a fine article, but so mingled with them were cockerel, wild clover, mustard seeds and a regular assortment of dirt and waste from threshing, as to reduce the value of the shipment of dirt and waste from threshing, as to reduce the value of the shipment by 20 per cent. Tet, the purchasing company had to pay full value for this car before being permitted to open the car, for no inspection of goods before acceptance is permitted by the railroad company. Retail and store purchasers come back at the commission houses after buying, and the latter have to stand the loss. They ter have to stand the loss. They naturally argue that this is entirely unfair. The application of the pure food law to cover scains would effect this much needed reform.

The markets are in receipt of car lots of California graphs.

The markets are in receipt of car lots of California grapes, oranges, and Jamaica bananas. Utah is still flooding the market with cantaloupes and a seasonable run of vegetables. Watermelons are thinning out, but fine local celery is beginning to arrive. The prevailing quotations today are as follows:

# MARKET STRONG, **CLOSING EASY**

New York, Sept. 20.-Stocks had strong opening today with the railroads conspicuous. Southern Pacific advanced 1%, Union Pacific 1%, Reading 1 and Great Northern preferred, Northwestern, Erie, Chesapeake & Ohio, Amalgamated Copper and Pacific Mail large fractions. Anaconda and National Biscuit showed gains of 1%. The trading was broad and

Profit-taking began immediately

Profit-taking began immediately in Reading and it lost its advance. The effect on the rest of the market was hardly noticeable, and the distribution of large buying orders soon sent prices quickly up again. Southern Pacine and the Hill stocks were the principal features, but there were important movements also in many other stocks. A large number of industrials and specialities were bought and U. S. Steel distinguished itself by making another new high record level at 84%. The preferred also rose %.

Constant selling of St. Paul, which ultimately forced it over a point below last week's close, checked the advance before II o'clock. Southern Pacific moved up 2%, Mackay companies and Vulcan De Tinning 24, the preferred, Chesapeake & Ohio and Grande Mining 2. Northern Pacific and Bethichem Steel 1%, Republic Steel 1% and numerous others 1. Another advance carried up Union Pacific 2, and Southern Pacific 3½. American Specialties, International Harvester rose 2%, Pittsburg C. C. and St. Louis 2½, the Republic Steel stocks and Colorado Fuel 2, and Sloss-Sheffield Steel 1%.

A dull sagging movement succeeded

A dull sagging movement succeeded and some calling of loans by the banks was reported. St. Louis and San Francisco second preferred lost a point.

Bonds were strong.

There was a moderate demand for half dozen specialties led by U. S. Steel, but the railroad list was rather neglected. National Biscuit advanced 3½, U. S. Rubber 2.

National Biscuit advanced 3½, U. S. Rubber 2.

Reading came into the foreground again with a rise to 171½, but there was not much change in other standard stocks. Inactive specialties kept mounting. Pittsburg C. C. and St. Louis gained 4½, American Can preferred 2 and International Paper 2. The market was selling off at 2 o'clock in sympathy with a reaction in St. Paul to 162½.

The market closed easy. Prices yielded again, St. Paul falling to 162½. Central of New Jersey yielded 3½. Consolidated Gas and Third Avenue 1½ and Union Pacific preferred. Wheeling & Lake Erie and Texas & Pacific 1. There was a recovery when American Smelting rose 1½, Colorado Southern and Louisville 1. Profit-taking was observed in some places on the advance, particularly the railroads.

#### PRODUCE.

CHICAGO.

CHICAGO.

Chicago, Sept. 20.—The wheat market was steady during early trading today considering the bearish news. chief among which was record-breaking receipts in the northwest. Arrivals of wheat at Minneapolis and Duluth today were 2.316 cars, which is nearly 300 cars more than the previous record.

Prices at the opening were unchanged to ½4% in lower, initial quotations on December being at \$8 to \$8½. There was considerable selling of the December delivery by a leading elevator interest which caused a further reaction to \$7%. Shorts were fair bidders for September, which had a steadying effect on the market in general.

Shorts were fair bidders for September, which had a steadying effect on the market in general.

Weak cables had a weakening effect on the corn market early in the session. December opened 160% to 160% lower at 60% to 60%. Sold at 60% and then eased off again to 60%.

Oats were weak because of liberal sales of the December delivery by a leading cash interest. The December option opened a shade to 1/2 lower at 39% 60% to 29% and sold off to 39% 6%.

Provisions were dull and rather weak, the heavy tone being due to a poor shipping demand. Prices at the opening were unchanged to 5c. lower.

Wheat—A stronger tone developed toward midday owing to a brisk demand for cash grain. December advanced to 38% 6%. The market closed fairly steady with December a shade lower at 88%. Corn—The market was weak all day. The low point for December was 60%. The market closed weak, with December 1, 102%; Dec. 28%; May, 1.01%.

Corn—Sept. 68. Dec. 60% 6%; May, 83%. Oats—Sept. 68. Dec. 60% 6%; May, 11% 6%.
